

## EARLY CHILDHOOD

*(Pre-Kindergarten and Kindergarten)*

Our Early Childhood program provides your child with engaging, play-based learning opportunities to ensure they have foundational skills ready for Elementary School. By playing, inquiring, and working by themselves, and collaboratively with their peers, our Early Childhood students learn about themselves and also about our community. Our skilled Early Childhood team works together in partnership with parents to support each child's development; academically, socially, emotionally, and physically. Early Childhood classes at RAS are for children from 3 years old.

### Safe and Secure Environment

- SOP's in place to ensure student health, well-being, and safety.
- Over 300 CCTV's and a highly trained security team ensure safety and security.

### Caring and Child-Centered Environment

- Low student to teacher ratio.
- Qualified and experienced educators committed to student success.

### Holistic American Education

- American education standards for Pre-School and Kindergarten building from the creative curriculum to common core for Maths and English, NGSS for Science, AERO for Social Studies, and NCCAS for the Arts.

### Technology-Integrated Learning

- We are committed to a hands-on play-based approach that is designed to foster the foundation of inquiry, language skills, and nurture the development of each child's unique learning journey.
